

JEFF A. TILLERY

Vice President of Quality Aurora Flight Sciences Corporation

Mr. Tillery joined the Aurora team in August 2005, and has served in multiple management capacities including Quality, Engineering, Manufacturing, and Program Management. In his current role, Mr. Tillery provides executive oversight of Aurora's AS9100C certified quality management systems (QMS) across the enterprise. With emphasis on quality, manufacturing, and supply chain performance, Mr. Tillery is focused on customer satisfaction, on-time delivery, and continuous improvement.

Prior to joining Aurora, Mr. Tillery held a variety of mechanical design engineering and quality management roles with world-class organizations including GE, Sundstrand, and Hughes Aircraft for both commercial and defense aerospace applications.

Mr. Tillery received his BS degree from Purdue University and is GE-certified as a Six Sigma Blackbelt with specialized emphasis on Design for Six Sigma and Design for Reliability.
